

Nothing Secures Like Mastisol[®]

Features & Advantages		Mastisol	Tincture of Benzoin	Skin Prep
Effective & Clinically-Proven	Reduced risk of post-operative contact dermatitis and skin discoloration. ¹	✓		
	Documented clinical evidence of superior adhesive power. ² Reduces unscheduled dressing changes that can be costly and time consuming.	✓		
Non-water soluble	Can be used on diaphoretic patients. Secures dressings in moist areas.	✓		
Sterile Unit-Dose Package	Reduces the risk of cross-contamination. Physicians and nurses can use single-use applicator in a sterile environment.	✓	✓	
Mild Scent	Will not irritate patients who may be very sensitive to harsh odors.	✓		✓
Clear	Will not stain skin, bed sheet, or clothing.	✓		✓
Skin Barrier	Acts as a barrier between the skin and the dressing.	✓	✓	✓
